

We are in need of some better telephone and Internet service. It takes forever to get anything done on the Internet with Verizon's services here in the heart of Wisconsin. They have better Internet service back in Old Country (in the remote Greek Islands) than we have here, an hour away from Madison WI. Verizon has a monopoly here and they don't provide anything (the fastest Internet connection 26.400 and ones in a great while 28.800) and we pay the most expensive telephone service in the Country!
Thank you for looking in to this problem!

Sincerely,
+Fr. Athanasios
